

Wrocław, 2021.09.28

INQUIRY

Institute of Geological Sciences of Polish Academy of Sciences, Warsaw - Wrocław Research Centre kindly invites to submit a price offer (using Attachment 1) in accordance with the following requirements:

1. Description of the object of contracting

U-Pb LA-ICPMS analyses of ca. 2500 spots in zircons (including mounting, polishing, CL imaging and data processing)

2. Extension of contract: until December 15, 2021

3. Award criteria: price 60%, experience 40%

4. Requirements:

Total number of samples: 25. Minimum analytical spots: 2500.

Zircons separated from 25 samples will be provided to the Contractor by the Contracting Authority. It will be required to prepare polished mounts with zircons, and collect CL images prior to U-Pb analyses. The images should have quality sufficient for later publication.

In each sample, 100 analytical spots should be analyzed, with core and rim analyses performed in not less than 10 zircon grains.

Not less than 2500 but not more than 2550 analyses should be performed with caution due to possible inclusions or cracks in zircons. The data report should be send in an electronic form together with CL images and standard xls files (including tables listing all analytical data required for plotting Concordia plots, probability density plots etc.). The mounts and remaining zircon separates will be sent to the Contracting Authority after the termination of the contract; costs of return of the samples will be included in the price.

The offer should include the overall price for the analyses.

5. Requirements for a Contractor:

Minimum five years of experience in geochronology and U-Pb isotope ratio analyses in zircons, confirmed by several articles published in high-quality international journals.

6. The person authorized to communicate with the Contractor: Prof. Andrzej

Żelaźniewicz, <mailto:pansudet@pwr.wroc.pl>

7. The deadline for submitting the offer: October 06, 2021.

8. The offer should be mailed electronically at the address: pansudet@pwr.wroc.pl

This inquiry does not oblige the Institute to conclude the contract. Selection of the offers will be made in accordance with the evaluation criteria specified above.
